

Donley Notes on Defense Agencies

- **DoD faces neither a crisis nor a pregnant opportunity with respect to Defense Agencies**
- **Treating “them” as such may be counterproductive**
- **Generalizations don’t hold; DA’s need individual attention**
- **Better than individual attention would be mission area or functional reviews of which DA’s are but one part**
- **Education before decision**
- **Facts and data as the basis for education**
